- For use with 3M Cast-In Devices.
- UL Testing.
- Accommodates plastic and metal pipes for use with 3M 2MCID.
- Accommodates concrete pours between 4-1/2 inches to 8 inches.

3M Height Adaptor

- For use with 3M Cast-In Devices.
- Adds up to 4 inches to height of devices.
- For special applications, it can be constructed to accommodate depth of concrete pour

3M™ Fire Barrier Cast-In Accessories

Deck Adaptor, Tub Box, Height Adaptor: three great ways your Cast-In Device adjusts to its surroundings.

Firestopping pipe through concrete has never been easier. And now you can add three easy-to-use accessories to our 3M Fire Barrier Cast-In Devices.

Deck Adaptor: This one-piece plastic device is easy to install. Use it on fluted steel pan decks for drain, waste, and vent or closed pipe systems.

Tub Box: Used primarily for new installations, and is designed for concrete thickness as thin as 4-1/2 inches and for 1-1/2 and 2-inch pipe sizes.

Height Adaptor: Extension snaps into place on 3M CID, so no additional fastening is required. It adapts easily and quickly to any concrete thickness.

Deck Adaptor works great on uneven surfaces i.e. fluted steel pan decks.

Tub box tested for 1-1/2" to 2" pipe sizes and heights of 4-1/2" to 8".

Snap the extension in place, adjust to any concrete thickness and pour.
